

Your First Choice for PPESM

Protective Eyewear

TOMAHAWK®
TK120

All 3 options offer stylish wraparound design and a one-piece polycarbonate lens with integral sideshields. One of our most comfortable safety glasses, Tomahawk® earns its reputation with dual adjustment ratchet-action temples. Stratos® is an affordable alternative with its extension-adjustable temples. With the Tacoma®, you get low-cost protection without giving up quality, safety, comfort or durability. There's also an uncoated version with non-adjustable temples for rock-bottom pricing. The Tacoma® XL is designed to fit over prescription glasses. The choice is yours!
