FLEX TUFF **ATLAS FIT**

HAND PROTECTION FOR EVERY INDUSTRY

ERGONOMIC DESIGN AND APPLICATION-SPECIFIC STYLES

Our top selling FlexTuff® series has now been expanded to include Atlas Fit styles. These Atlas Fit offerings are from the same manufacturer as our FlexTuff® series which pioneered their ergonomic design. All styles are manufactured on seamless knit liners that are flat dipped to reproduce the natural curved shape of the hand. As a result, workers benefit from less hand fatigue and greater productivity while performing detailed tasks to heavy duty jobs. This addition gives our distributors the option of marketing identical products with different trade names and color options.

GENERAL PURPOSE
