KEVLAR®

Guards against Cuts, Abrasion and Heat

When you need cut resistance, comfort and sensitivity Memphis Glove offers you the next level in the KEVLAR® line of products. 100% DuPont™ KEVLAR® fiber is five times stronger than steel on an equal weight basis. KEVLAR® will not melt, ignite or conduct electricity which offers greater protection for electrical applications. Gloves bearing the KEVLAR® trademark are only available through DuPont licensed manufactures.

KEVLAR® Armor Technology

If your employees require enhanced cut protection in critical situations, without compromising comfort and dexterity, then it's time to consider KEVLAR® Armor Technology. Significantly lighter and more comfortable than traditional high cut solutions, KEVLAR® Armor Technology protects personnel who need the dexterity for handling small electronic parts, appliances, knives, blades and other sharp instruments.
