-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------

Features And Benefits

Memphis Redcoat Kevlar is produced from higher quality resins and plasticizers which provides more flexibility in a greater range of temperatures. This is a double dipped PVC 12” gauntlet with a sandy finish palm. The most unique feature is the seamless DuPont Kevlar lining which provides very good cut protection, EN cut level 3. The combination of this cut resistant liner and premium PVC create a liquid proof option with cut protection. Actifresh, an antibacterial agent, is used to eliminate odors and promote better hygiene. This tough and flexible PVC glove provides excellent wet and dry grip. Additionally, it provides a good grip for degreasing and petrochemical applications. Available in sizes M-XXL. CE score 4342
