Dear Ms Olson:

On July 17, 2004, our nineteen year old son Adam was involved in a golfing accident. He was hit directly in the eye with a golf ball at approximately 30 yards off the tee. Adam was wearing a pair of Apache Safety Sun Glasses at the time of his accident. The lens of the safety glasses did not break and absorbed most of the impact of the ball. The imprint of the golf ball is in the lens of those glasses.

However, due to the speed and the impact, Adam did end up loosing his left eye from this accident. With all that said, the paramedics and doctors feel if it had not been for your safety glasses, Adam would not be with us today. We would like to thank you for making a good produce that saved my son's life.

Due to the style of your glasses, Adam had enjoyed wearing them prior to the accident. After the loss of his eye, he has your Clears, 50/50's and sun glasses on at all times.

Sincerely,

A handwritten signature in cursive script that reads "Penny Stroud". The signature is written in dark ink and is positioned to the right of the word "Sincerely,".
